ABOUT ME

I am a 24-year-old Junior Full Stack Developer based in Drogheda, County Louth. I am currently working remotely for Digigrow Consulting on a full-time basis where I use many technologies such as ReactJS, NodeJS and Redux! I work closely with other developers and pride myself in my ability to work as a part of a team and organisational skills.

TECHNICAL SKILLS

Below is a list of technical skills I have acquired over the past 5 years I have been coding!

- | | | | |
|-------------|---------------|-----------------------|--------------|
| • ReactJS | • Ionic | • Postman | • SASS |
| • NodeJS | • TailwindCSS | • Basic AWS Knowledge | • MySQL |
| • ExpressJS | • Bootstrap | • Linux | • REST API's |
| • MongoDB | • Redux | • JavaScript | • Git |
| • HTML | • CSS | | • PHP |

PROJECTS

Below are some notable projects I have worked on. However, you can see them in more detail with images [here!](#)

Queen Healthcare

ReactJS, Redux, NodeJS, MongoDB, SASS

A job search and application website that contains file uploads and CRUD functionality. I completed this project in around a month and found my biggest task and biggest accomplishment to be implementing multiple file uploads on a job application form.

Diamond Point Web App

ReactJS(hooks), Redux, TailwindCSS, NodeJS, MongoDB

A client management app for a security company with the ability to log contact events! Included in this is an excel sheet reader that converts existing data in an xlsx file and imports in into a MongoDB database for future use!

Rapido Booking System

HTML, CSS, PHP, MySQL, Ajax, Bootstrap

A restaurant booking platform used by various businesses where restaurants can log bookings in advanced, manage them easily, view them via a planner and quickly add walk in bookings!
